CISSP®

Certified Information Systems Security Professional
(Boot Camp Program)

Course Duration
5 days of live training (Upon enrolling you are automatically subscribed to the Online Training Program for 1 year.)

Certification Description
The CISSP was the first credential in the field of information security, accredited by the ANSI (American National Standards Institute) to ISO (International Standards Organization) Standard 17024:2003. CISSP certification is not only an objective measure of excellence, but a globally recognized standard of achievement. Upon completion and passing the exam the learner will have demonstrated knowledge and skill in developing IT security policies, standards, and procedures as well as manage the implementation across the enterprise.

Course Outline
Learners will gain competency in the following 10 CBK domain topics:

• Access Control
• Software Development Security
• Business Continuity and Disaster Recovery
  Planning
• Cryptography
• Information Security Governance and
  Risk Management
• Legal, Regulations, Investigations and
  Compliance
• Operations Security
• Physical (Environmental) Security
• Security Architecture and Design
• Telecommunications and Network Security

Delivery Method
Live Certified Instructor Led & Self-Paced Learning

Ideal Candidate
The CISSP credential is recommended for, but not limited to, mid- to senior-level managers who are working toward certification as an Information security professional or those who have already attained positions as CISOs, CSOs or Senior Security Engineers looking to get certified as an information security professional.

Course Materials
Each learner will receive a comprehensive and in-depth self-study kit and online technical support that cover the 10 CBK domains, which includes:

• Access to our Live Online CISSP® training
  material for 1 year
